

Application

The antenna can be used in any environment where long-range Long Range connections are required.

Agriculture

Environmental Monitoring

Urban Monitoring

Technical Parameters

Electrical parameters	
frequency range	868MHz
Input impedance	50Ω
Max Gain	2.8dBi
Max input power	<10W
Polarization Mode	Vertical
Radiation direction	omnidirectional
Connector Type	RP- SMA Male
Mechanical Parameters	
Total length	195+/-3mm
Sustaining power	>=3kg
Environment parameter	
Operating Temperature	-30°C~65°C
